Summers are here again. It's a time to get away from the sweltering heat and the dreary weather. So while you enjoy your Summer Break in the cool environs of your home, we have chosen some holiday tasks that 🗯 will help you not only understand and revise the concepts done in the class but will also help you be creative and imaginative.

Our endeavour, dear parents is to ensure the kids work on their own and not get it outsourced from $e^{\mathbf{r}}_{\mathbf{s}}$ swhere. We would appreciate if you encourage the kids to come up with innovative ideas presented neatly and beautifully.

Kave a great summer break!
